2005 Customer Proprietary Network Information Certification

I, Keith Duncan, **President** of D-Tel, LLC have firsthand knowledge of the procedures that D-Tel, LLC has implemented to comply with the Federal Communications Commission's rules pertaining to safeguarding customer proprietary network information ("CPNI"). D-Tel is a small data local exchange carrier that offers data high capacity services to retail customers and unbundled network elements on a wholesale basis exclusively in Wilmington, Delaware. D-Tel only began offering these services to customers in 2005, and, to date, has a limited number of customers. It is D-Tel's intent not to use customer proprietary network information ("CPNI") and is training its employees in the appropriate use of that information. I relied on Attachment A in making this certification.

Customer Proprietary Network Information Certification

Attachment A

D-Tel is establishing policies and procedures to comply with the Federal Communications Commission's ("FCC") rules pertaining to the use, disclosure, and access to customer proprietary network information ("CPNI") set forth in section 64.2001 et seq. D-Tel is training its personnel in the appropriate use of CPNI. To date, D-Tel has not used CPNI for any marketing purpose. D-Tel only has used CPNI, if at all, for the purpose of providing service and rendering invoices to its customers. D-Tel does not share CPNI with affiliates or third parties.
